Teacher:	School Year	20	-20	
- Cacileii	School real			

Sixth Grade Technology Skills Checklist

Student I	Name	
]	Use appropriate Search tools and strategies for specific assignments or projects: Research Skills
]	Evaluate quality of Internet resources to determine credibility, timeliness and accuracy: Research Skills
]	Use search or find to locate a file or program: Computing Skills
]	Add headers, footers, and page numbers to documents: Word Processing
]	Flow text around an image or table: Word Processing
]	Use spell check, find, and replace: Word Processing
]	Create a multimedia presentation: Graphics and Presentation
]	Save and retrieve a presentation: Graphics and Presentation
]	Print presentation as handouts: Graphics and Presentation
]	Know what information should not be put on the internet because it is private or could put you in danger: Internet Safety
]	Perform arithmetic calculations in a spreadsheet (add, subtract, multiply, divide): Spreadsheets & Databases
]	Sort data: Spreadsheets & Databases
]	Create graphs and charts from data: Spreadsheets & Databases
# words per minute		Improve words per minute: Keyboarding
# errors		Improve accuracy: Keyboarding
